Based on the available evidence, the total identified campus buildings/facilities area of Andijan State Institute of Foreign Languages is 24,818.54 m<sup>2</sup>. Supporting land and green areas are reported separately and are not included in this total

## Description:

The Andijan State Institute of Foreign Languages (ASIFL) maintains academic, administrative, residential, sport, service and affiliated facilities to support teaching, learning and student life.

The total identified campus buildings/facilities area is 24,818.54 m<sup>2</sup>. This value is calculated from the technical inventory and cadastral data presented in the supporting evidence.

Land-only areas are reported separately in order to avoid double counting. For example, the affiliated garden area and the full Summer Camp territory are shown as supporting land/green areas, while only the building structures of the Summer Camp are included in the building area calculation.

The evidence includes technical layout documents, building plans, photographs and maps showing the location, area size and distribution of main facilities relevant to the indicator.
