[4] Water (WR)

[4.4] Water Efficient Appliances Usage (WR. 4)

Example of Water Efficient Appliances Usage

**Description:**

Andijan State Institute of Foreign Languages has installed water-efficient sanitary appliances across campus facilities. Low-flush and dual-flush toilet systems are implemented in campus sanitary areas to reduce water consumption per use. Water-efficient washbasin fixtures are installed in academic and administrative buildings. Selected sanitary facilities are equipped with water-saving urinal systems.

Water-efficient appliances currently installed include low-flush toilet systems, dual-flush toilet mechanisms, water-efficient washbasin fixtures, water-saving urinal fixtures. These appliances are distributed across academic buildings, administrative facilities, and student service areas. Routine plumbing inspections and preventive maintenance are conducted to ensure proper operation of water systems and to minimize leakage.

Implementation Status

- Toilets: 60% water-efficient systems
- Washbasins: 63% water-efficient fixtures
- Urinals: 53% water-efficient fixtures

Average water-efficient appliance usage: 59%

Appliance	Total Number	Total number water Efficient appliances	Percentage
Toilet	50	30	60%
Wastafel	35	22	63%
Urinal	15	8	53%
		Averaga percentage	59%
