[5] Transportation (TR)

[5.5] Shuttle Services (TR.2)

Shuttle Services

Bus Timetable

Description:

Andijan State Institute of Foreign Languages provides well-organized and efficient shuttle and bus services to ensure reliable, affordable, and sustainable transportation for its students and staff both within the campus and across the surrounding urban areas.

1. City Bus Route No. 222: The institute is well connected to the city through Bus Route No. 222, which serves 28 stops across the city, providing students and staff with convenient access to and from the campus. The bus operates every 30 minutes throughout the day, ensuring frequent and reliable connectivity for the entire campus community. This service significantly reduces the need for private vehicle use and encourages the adoption of public transportation as a sustainable commuting alternative.

Operating hours: 06:00 – 18:00 (Monday to Saturday)

Frequency: Every 30 minutes

Number of stops: 28

Fare: 2,100 UZS per trip

Capacity: 30 passengers per bus

2. Eco Line Electric Campus Shuttle: The institute operates 3 Eco Line fully electric shuttle buses that serve 24 designated stops across the campus and surrounding areas. These zero-emission electric buses provide a clean, quiet, and environmentally friendly transportation option for students and staff, significantly reducing carbon emissions and air pollution within the campus territory.

Operating hours: 06:00 – 18:00 (Monday to Saturday)

Frequency: 12 trips per day

Number of stops: 24

Fare: 2,100 UZS per trip

Capacity: 30 passengers per bus

Vehicle type: Fully electric (zero emission)

Route Coverage and Accessibility: Both transportation services operate Monday through Saturday, ensuring consistent coverage throughout the academic week. The combination of the city bus route and the internal Eco Line electric shuttle provides comprehensive, multi-layered transportation coverage for the entire campus community, connecting key academic buildings, student dormitories, and surrounding urban areas in a reliable, affordable, and sustainable manner.

The evidence provided may also include maps showing the location, route, stops, and distribution of shuttle and bus services relevant to the campus transportation network.
