[5] Transportation (TR)

[5.14] Program to limit or decrease the parking area on campus for the last 3 years (TR.6)

**Description:**

Andijan State Institute of Foreign Languages has introduced a range of transportation initiatives designed to reduce the use of private vehicles on campus and promote sustainable, healthy commuting habits among students and staff.

Limiting Parking Zone for Students: The institute has established parking restrictions across 6 designated zones on campus. By limiting the number of available parking spaces for private vehicles, the institute actively discourages unnecessary car use and encourages students and staff to opt for more sustainable transportation alternatives.

Free Bicycle Rental on Campus: The institute provides a fleet of 100 bicycles available for free rental to students and staff. This initiative promotes eco-friendly commuting, reduces carbon emissions, and encourages a healthier, more active lifestyle among the campus community. Bicycles can be rented conveniently, offering a practical and sustainable alternative to private vehicle use for short-distance travel within and around the campus.

Carpooling Initiative (Ride Share): The institute actively promotes a carpooling program designed to encourage commuters to share private vehicles when traveling to and from campus. This ride-share initiative reduces the total number of vehicles entering the campus, thereby decreasing traffic congestion, lowering carbon emissions, and fostering a culture of sustainable transportation among students and staff.

Through these combined efforts, Andijan State Institute of Foreign Languages demonstrates a strong institutional commitment to reducing its environmental footprint and building a greener, more sustainable campus transportation system.
